

LEAPING BUNNY APPROVED PRODUCTS 2012

The leaping bunny programme is an internationally accepted standard developed by a number of international animal organisations that defines what constitutes a 'not tested on animals' product. ***They are not approved by BWC*** as they may contain ingredients that have been required to be tested on animals 'by law' after a fixed cut off date, or have an unacceptable parent company but we offer the list as a service.

COSMETIC / PERSONAL CARE COMPANIES

V= VEGAN VEG = VEGETARIAN
